

EXAMION CLASSIC FPS

Digital Radiography

*digital radiographic x-ray system
with flat-panel detector*

Integrated DR-System

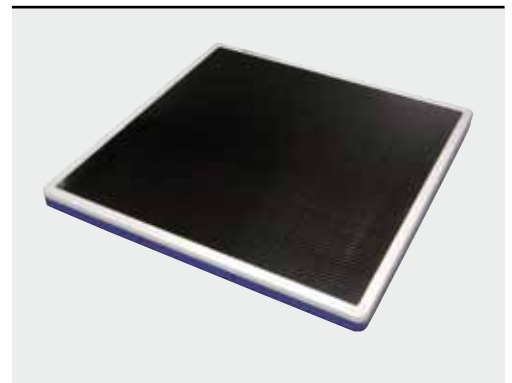

Digital x-ray System of a piece.

The **EXAMION CLASSIC FPS SYSTEM** integrates all components of a digital x-ray machine. The whole system is controlled by one touch screen computer. The automated workflow system of the **EXAMION AQS SOFTWARE** minimizes the steps during due to the advantages of the intelligent workflow system. Also the software interface takes control of the x-ray generator and acquires the images from the high resolution 17 x 17" detector unit. The outstanding image quality is achieved by the advanced post processing algorithms of the examion AQS software.
